

Software Updates for Tablets

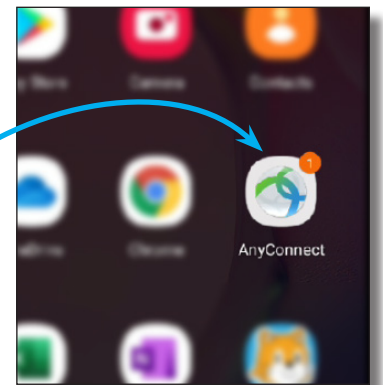

1. Ensure the tablet is connected to your home wi-fi or hotspot.

2. Swipe down from the top of the screen to open the notification window.

3. Tap on the **VPN Connection Request**, then tap **OK** to complete the connection.

- If the VPN Connection Request is not in the notification window, swipe up to bring up all of the installed apps and tap on the AnyConnect app.
- Wait up to 30 seconds while the app checks the connection, then tap on the **OK** button when prompted.

4. When completed the app will look like the example.
